mini Rustica F1

High quality Mini : High quality Mini type with a strong foliage, very long flowering period with plenty of flowers. Suitable for pots 10.5 cm and more, it's a medium early variety. Flowering period from October to March.

Mini RondO F1

The advantages : More voluminous than the other mini type, the plants have an equal size. The stems are thick and short, robust and round plants habit. Suitable for 10-12 cm pots.

Full mix 11 colors

Mix

Mini Excellence

Exceptional central flowering : very strong and round shape plants, full flowering will take 2-3 weeks more than the Calypso F1 variety. Sensitive to botrytis.

Mix

SunKiss

Ideal for winter flowering : very strong variety perfect for flowering in winter time. Very bright and attractive colours, resistant to botrytis.

Full Mix

Flamed mix

Flamenco

Bright mini : original by its decorative colours on a slighty silver foliage, needs two more week for full flowering. 10% off type. Can be an additional variety to the Frou-frou Mini Franged type.
